#### **Main Assets**

##### **SHEA BUTTER**

It has emollient, antioxidant, nourishing and moisturizing properties and preserves the natural elasticity of the skin.

##### **RICE WAX**

This wax has the particularity of regulating sebum in oily skin and instead hydrating dry skin. Powerful anti-inflammatory and antioxidant.

##### **CAMELIA OIL**

Counteracts the "stiffening" process of collagen restoring elasticity and radiance to the skin. It also boasts healing and antiseptic properties.

##### **JOJOBA OIL**

Has a soft and dry touch and a protective, nourishing, emollient and softening action. The particular nature of the lipid constituents of jojoba oil allows on the one hand greater penetration and prompt epidermal absorption, and on the other hand a high film-forming activity. It also has a protective action against the sun, thanks to the stability of these molecules to UV rays.

##### **LEMON EXTRACT**

Stimulates cell renewal through the strong exfoliating properties of AHA. Rich in vitamins, it has antioxidant and elasticizing properties.

##### **VITAMIN E**

Performs an anti-free radical and antioxidant action, contributes to maintaining the proper functioning of connective tissues.
