Description

A lightweight, fluid face cream designed to provide optimal hydration and advanced SPF 50+ protection against the damage of photoaging and digital aging. With daily use, it prevents dark spots, hydrates and revitalizes the skin, creating an effective, broad-spectrum barrier against the main factors of skin aging, oxidative stress and hyperpigmentation: UVA and UVB RADIATION, INFRARED (IR), BLUE LIGHT (HEV). In addition to providing very high protection, it provides the skin with everything it needs to stay younger, more even and more radiant, day after day.
